

Scholarships

Scholarships are very important to students at Iowa State and to the Alumni Association. However, in order for a club to establish a scholarship specific to their area, they must meet specific guidelines through the Iowa State University Foundation. Those guidelines include a commitment of \$1250 for at least five years for an expendable fund (dollars in, dollars out: awarded every year), or an endowment of \$25,000 (spending only earnings each year).

If the annual amount is less than \$1250, the donated funds will then be added to the ISU Alumni Association general scholarship fund (or another designated fund) and distributed as necessary.
