

ISUAA's Guide to

HOOK AND RING GAME

With the colder weather, your tailgates have likely moved indoors. The hook & ring game works great outside, but also is a great indoor game too! You can order the game online or make it yourself. You can even order an Iowa State version from numerous websites!

SUPPLIES:

- ▶ Rope or string
- ▶ Eye hook
- ▶ Ring
- ▶ Hook

SET-UP:

You will mount an open hook (facing up) on the wall about 4-5 feet high on the wall. Then, you will mount an eye hook in the ceiling, roughly 5 feet from the wall. You will then tie the string with the ring at the end into the eye hook, so the string hangs down from the ceiling. If you have purchased a kit, they should give you measurements for that specific kit. See next page for picture of set up.

ISUAA's Guide to

HOOK AND RING GAME

TO PLAY THE GAME:

This will be one of the easiest set of instructions. The player will take the ring and try to swing it so it gets hooked on the hook. That's it! Easy, right? It sounds a lot easier than it actually is. It can be challenging, but the first player to get it hooked, wins! You could make teams or play individually.
